Forging of the Lightsaber

Chapter 1 by SuperFolder Ghostbuster

Jedi younglings always gather so that they can venture on to build their own lightsabers. Not me, I went alone. I was summoned by Master Qeatz Alzos, a female rodian jedi master who wants me to be her secret apprentice. I was sent onto her ship where we went to the Ice planet of Ilum. I was told that my lightsaber crystal would be in the freezing caves of the ice planet. We thought that this would be peaceful until a bounty hunter found a bounty on Qeatz's head and started going after us. I was told to hang on.

When we reached the planet's snowy surface, I was told to run into a cave to find my crystal. Qeatz would hold the bounty hunter off herself. As I entered the cave. I fell down a snowy hole expecting hundreds of crystals for me to choose. Instead, I found only one crystal: My lightsaber crystal. I picked it up and set off to return, but I fell so low that I couldn't jump or climb my way back up. I had to find another way out so that I could construct my Jedi weapon. Meanwhile, Master Qeatz Alzos ignited her lightsaber revealing a blue blade to defend herself from the bounty hunter. The bounty hunter had camouflaged himself so that she wouldn't see him, but her Jedi senses were too keen for the seemingly invisible bounty hunter as she used the Force to have an avalanche fall onto the bounty hunter, foiling the camouflage, but the fight continued anyway.

I was still stuck inside the deep, dark caverns of the planet hoping to find a way out. All I ran into was a maze of tunnels that all mislead me to a different direction throwing me off for what seemed like hours, maybe days. I wasn't sure if I was going to make it out or not.
